India Infrastructure Research
The port sector is set for exciting times ahead. Sagarmala is going to be the biggest investment driver in the sector. Over Rs 5 trillion worth of projects are at various stages of implementation and development under Sagarmala alone. A number of greenfield non-major ports are also on the anvil with an investment of more than Rs 700 billion. Areas such as shipbuilding, cruise shipping, ro-ro services, and smart port cities have also witnessed increased interest in the past few years. The various policy measures announced in the sector such as amendment to the model concession agreement, cabotage relaxations, new draft guidelines for major ports, etc., will help increase investor confidence in the sector.

The Ports in India 2020 report will help you:
- Gain a comprehensive view of the port sector
- Assess progress, challenges and opportunities under Sagarmala
- Identify the project pipeline at both major and non-major ports
- Learn about the new and emerging opportunities in the Indian port sector
- Support business planning and strategy
- Understand the issues and challenges to mitigate and avoid risks
