

Battery Energy Storage Monitor

The Battery Energy Storage Monitor provides regularly updated data on battery energy storage (BESS) projects that are already under operation or are under different stages of implementation. The monitor tracks standalone BESS projects, solar plus storage projects as well as firm and dispatchable renewable energy (FDRE) projects. It consists of an excel dataset and monthly reports.

The excel dataset provides details on important parameters of these projects including:

- Key Stakeholders
- Location
- Project Capacity (With or Without Renewables)
- Expected Generation
- Duration of Storage
- Status of Project
- Off Taker Details
- Project Announcement and Result Dates

The dataset is accompanied by a monthly report which gives a comprehensive update on:

- Snapshot of the Month
- Market Overview
- State-Wise Update
- Tender Announcements
- Auction Results
 - Standalone BESS Projects
 - Solar Plus Storage Projects
 - FDRE Projects
- Historical Tariff Trends
 - Standalone BESS Projects
 - Solar Plus Storage Projects
 - FDRE Projects
- Player Landscape
- Recent Developments
