

Green Hydrogen Monitor

The Green Hydrogen Monitor provides regularly updated data on green hydrogen, green ammonia and electrolyser manufacturing projects that are under implementation or are already under operation. It consists of an excel dataset and monthly reports.

The excel dataset provides details on important parameters of these projects including:

- Specific Product Type
- Application
- Key Stakeholders
- Location
- Project Capacity (With or Without Renewables)
- Electrolyser
- Status of Project
- Key Dates

The dataset is accompanied by a monthly report which gives a comprehensive update on:

- Snapshot of the Month
- Projects Commissioned and Pipeline
- State-Wise Update
- Tender Announcements
- Auction Results
- Electrolyser Projects Update
- Top Developers
- End-User Landscape
- Key Developments

RenewableWatch

Annual subscription fee - Rs 120,000 plus GST
