

POWER TRANSMISSION IN INDIA 2026

Table of Contents

Release Date: March 17, 2026 | No. of pages: 250

1. Segment Size and Growth

- Growth in Transmission Line Length
- Growth in AC Transformer Capacity
- Growth in Transformer Capacity - HVDC
- Trends in Substation Additions
- Growth in Interregional Transfer Capacity
- Growth in HVDC Power Transfer
- Region-wise Interregional Transfer Capacity
- Total Transfer Capability
- Cross-border Power Transfer Capacity
- System Availability and Reliability

2. Key Policy and Regulatory Developments

- National Monetisation Pipeline 2.0
- Draft National Electricity Policy 2026
- Union Budget 2026-27 Highlights
- Amendment to RoW compensation supplementary guidelines
- Roadmap for 100 GW of Hydro Pumped Storage projects by 2035-36
- SC Order on GIB issue
- Revised type tests guidelines for major power sector equipment
- Revised MQAP guidelines for major power sector equipment
- Draft Procedure for Closing Applications due to Grid Augmentation Rejection
- GRID-India's discussion paper on Grid Forming inverter technology
- Draft procedure for scheduling, metering, and accounting of bulk consumers at same ISTS point
- Draft procedure for relieving congestion in real time operation
- Draft Procedure for Approval of Change in Control of Connectivity Grantee
- CERC's Cross Border Trade of Electricity (Second Amendment) Regulations, 2025
- Localisation of T&D components
- Draft procedure for declaration of state-wise solar and non-solar hours

- CERC staff paper on allocation of connectivity where PPA signing is delayed
- Order to remove difficulties in implementing GNA Third Amendment Regulations
- Draft Rules for Change in RE Source for ISTS Projects
- Draft Procedure for Criteria of Grouping ISTS Substations into Clusters
- Others

3. Recent Developments

- Key Commissioned Projects in last 12 months
- Recently Awarded TBCB Projects
- M&A Transactions
- InvITs-related developments
- Recent Financings

4. TBCB Update

- Current Status
- Private Participation Trends
- ISTS TBCB Projects –Commissioned and Under Construction
- Trends in Tariffs Discovered
- Intra-state TBCB Projects
- Projects identified for Bidding
- Future Project Pipeline

5. Transmission System Development for evacuation of Renewable Energy

- Overview
- Transmission System for Planned RE
- Brahmaputra Basin Transmission Evacuation Plan
- Roadmap to 100 GW of Hydro Pumped Storage Projects
- Status of Green Energy Corridors I and II
- Green Energy Corridors III
- Transmission System for additional hydro power projects by 2030
- Transmission System for Green Hydrogen & Green Ammonia projects
- Off-shore Wind Power Transmission
- HVDC and Inter-regional corridors
- REMCs
- Outlook

6. Project Pipeline and Investment Outlook

- Project Pipeline (under construction, under bidding, announced projects etc.)
- Projected Line Length
- Projected Transformer Capacity
- Projected Substation Additions
- Projected Investments

7. STU Network & Operational performance in last 5 years

- Growth in Intrastate line length
- Growth in Intrastate transformer capacity
- Growth in Number of Substations
- Transmission Loss Performance
- System Availability Performance

8. STU Financial Performance in Last 5 years

- Revenues
- Expenditure
- O&M Costs
- Net Profit/Loss
- Capex
- Transmission Charges and Tariffs
- Return on Equity

9. Future Outlook and Capex Plans

- Network Addition Plans
- Projected inter-regional Transfer Capacity
- Investment Projections
- Projected Capex by Powergrid and STUs
- Planned Cross-border Regional Interconnections
- OSOWOG Initiative
- Outlook for Private Participation

Dataset (Excel)

- List of Transmission Projects Under-Construction, Awarded, Planned, Under-Bidding, etc.

Subscription fee (one year): Rs 90,000 plus GST
