

PUMPED STORAGE MONITOR

The Pumped Storage Monitor provides regularly updated data on pumped storage projects (PSPs) that are under different stages of implementation and approvals or are already under operation. It consists of an excel dataset and monthly reports

The excel dataset provides details on important parameters of these projects including:

- Key Stakeholders
- Location
- Project Capacity
- Number and Capacity of Turbines
- Expected Generation
- Duration of Storage
- Detailed Status of Project Approvals and Construction
- Project Type (On-River or Off-River and Open Loop or Closed Loop)

The dataset is accompanied by a monthly report which gives a comprehensive overview of the:

- Market Overview
- Monthly Update
- State-Wise Potential
- Project Pipeline and Status of Development
- State-Wise PSP Portfolio and Pipeline
- Details of PSPs Commissioned
- Details of Projects under Construction and Concurred by CEA
- Project Classification by Type
- Developer-Wise Portfolio
- Classification by Project Size
- Recent Developments
- Outlook
