Power

The next frontier: Promising clean energy technologies to watch	6
MPPTCL: Initiatives to address evolving energy needs	8
Smart metering initiatives: Discoms take measures to	10
improve their performance	
DGVCL: Focus on sustainable and customer-centric growth	14
Banking on bluetooth: BLE-enabled energy meters can	17
enhance discoms' operational efficiency	
Scaling operations: Key growth drivers for the data centre industry	18
Reverse charging solutions: CEA report on EV utilisation	20
for vehicle-to-grid services	
Key statistics: Funds sanctioned and released under the RDSS	22

Gas

Digital developments: Increased adoption of technology	26
across CGD networks	
Views of Suresh P. Manglani: "ATGL strives to build	28
infrastructure ahead of demand"	
Integrating technology: Data-driven digital strategies being	30
adopted by oil and gas majors	
Views of R.R. Ghalsasi: "Technology deployment no	31
longer remains a choice"	

Enabling industrial automation: Unlocking the potential of	32
5G integration in the oil and gas sector	
Promising potential: Initiatives in the biogas sector	34
Key statistics: Status of the natural gas pipeline network	36
Key statistics: Current LNG infrastructure and import trends	37

Water & Waste

Views of G. Asok Kumar: "There has been a notable	38
improvement in river water quality"	
Digital game changers: Technological interventions for	40
improving water network management	
Aiming for water circularity: Measures for recycling and	44
reusing treated wastewater	
Waste to worth: Improvement in the O&M of STPs in India	46
Project showcase: Worli WWTF to enhance	48
wastewater treatment	
Tech advantage: Advancements in the wastewater sector	50
Key statistics: Update on water testing under the	53
Jal Jeevan Mission	
Key statistics: Update on sewage generation and	54
treatment capacities
