MISSION

- The Indian aviation sector has finally recovered from the impact of Covid-19. Traffic has picked up significantly, more than doubling from 63 million passengers in the April-September 2021 period to 150 million passengers in the corresponding period in 2022.
- At present, around 141 airports are operational across the country and the number is expected to increase to 220 by 2024-25. Further, the sector operates a fleet of around 700 aircraft, which is expected to increase to around 1,000 in the coming years.
- There have been several notable developments in the sector, such as construction of big-ticket greenfield airports, privatisation of airports, launch of a new airline, as well as formulation of a drone policy, which have contributed to the positive sentiment. The RCS UDAN scheme, which is now in its fifth year, has helped air traffic grow, with new routes being awarded, and more and more airports being operationalised.
- The leasing of six airports – Ahmedabad, Jaipur, Lucknow, Thiruvananthapuram, Mangaluru and Guwahati – has been a significant step. These have been awarded by the Airports Authority of India (AAI) for operations, management and development under public-private partnership mode for a period of 50 years. As per the National Monetisation Pipeline, a total of 25 airports of the AAI have been earmarked for asset monetisation by 2025.
- Meanwhile, with the aim of making India a global maintenance, repair and overhaul (MRO) hub, the government has introduced a new MRO policy. Eight airports have been identified for setting up MRO facilities, namely Begumpet (Telangana), Bhopal (Madhya Pradesh), Chennai (Tamil Nadu), Chandigarh, Delhi, Maharashtra, Kolkata (West Bengal) and Tirupati (Andhra Pradesh).
- Technology has now become an integral part of the aviation sector. Airports and airlines are extensively using technology and digitalisation to make traveling more efficient and smoother for passengers. Almost all airport related activities are now being done with the help of technology including plane boarding procedures, contactless screening, biometrics, etc.
- The sector outlook for the future looks positive, with investments to the tune of around Rs 1 trillion expected in airport infrastructure development. This includes expansion of terminal buildings, setting up new domestic cargo terminals, provision of navigational facilities and development of greenfield airports.
- **The mission of this conference is to discuss emerging trends in the sector, highlight upcoming opportunities, identify unresolved challenges, and discuss future priorities. The conference will also showcase the most noteworthy projects and promising technology solutions.**

TENTATIVE CONFERENCE PROGRAM

www.indianinfrastructure.com

TRENDS, DEVELOPMENTS AND OUTLOOK

GOVERNMENT PERSPECTIVE: PROGRESS AND PRIORITIES

AAI'S PERSPECTIVE: PROGRESS, INITIATIVES AND OPPORTUNITIES

AIRPORT PRIVATISATION: EXPERIENCE, CONCERNS AND POTENTIAL

INDUSTRY PERSPECTIVE: EXPERIENCE, STRATEGIES AND OUTLOOK

SMART AIRPORTS: FOCUS ON DIGITAL TECHNOLOGIES

FOCUS ON SUSTAINABILITY: NEW MATERIALS AND ENERGY EFFICIENCY PRACTICES

UPDATE ON REGIONAL CONNECTIVITY SCHEME

FOCUS ON CARGO HANDLING

INVESTOR PERSPECTIVE

RISING ATF FUEL PRICES: EXPERIENCE, CHALLENGES AND FUTURE OUTLOOK

FOCUS ON MEGA GREENFIELD AIRPORTS: NAVI MUMBAI, JEWAR AND MOPA

PROJECT SHOWCASE: GREENFIELD AIRPORTS, NEW TERMINALS AT EXISTING AIRPORTS, AIRPORT MODERNISATION

EQUIPMENT SHOWCASE

TARGET AUDIENCE

The conference is targeted at:

- ❖ Existing airport operators
- ❖ Management consultants and market analysts
- ❖ Developers and contractors
- ❖ Equipment manufacturers
- ❖ Renewable energy companies
- ❖ Policymakers and regulators
- ❖ Safety, security and surveillance companies
- ❖ Airlines
- ❖ Airport service providers
- ❖ Legal firms
- ❖ Financial institutions
- ❖ Architecture and design consultants
- ❖ New/Potential airport operators
- ❖ Cargo and MRO service providers
- ❖ Lighting companies
- ❖ Construction material manufacturers
- ❖ Engineering and construction firms
- ❖ Aviation fuel sellers
- ❖ Communication solution providers
- ❖ IT solution providers and technology providers (cement, steel, etc.)

UPDATED FIRST LIST OF CONFIRMED SPEAKERS INCLUDES *(in alphabetical order):*

ARUN BEHAL

- There is a 15 per cent “Early Bird” discount for those registering before February 16, 2023.
- Please contact us for registration of more than 3 delegates.
- GST @ 18 per cent is applicable on the registration fee.
- Registration will be confirmed on the receipt of payment. To register online, please log on to <http://indiainfrastructure.com/conf.html>

TERMS AND CONDITIONS

Payment Policy

Full payment must be received prior to the conference. For discounted rates, the payment must be received on or before the discount expires.

Cancellations

- ❖ Cancellation requests received in writing 30 days before the date of the conference will be eligible for a full refund, minus a service charge/administration fee of USD 30. We regret that no refunds will be made for any cancellation requests received less than 30 days prior to the conference.
- ❖ Substitutions/name changes are welcome at no extra charge. Please send these in writing at least two days prior to the conference.

Disclaimer

- ❖ Indian Infrastructure shall assume no liability whatsoever in case the event is postponed or cancelled due to a fortuitous event or unforeseen occurrence that renders the performance of this conference impracticable, illegal or impossible. For purpose of this clause, a fortuitous event shall include, but not be limited to: war, fire, labour strike, extreme weather or other emergency.
- ❖ Please note that it may become necessary for reasons beyond the control of the organisers to make alterations to the content and timing of the programme or speakers.

ABOUT THE ORGANISERS

The conference is being organised by **India Infrastructure Publishing**, the leading provider of information on the infrastructure sectors. The company publishes **Indian Infrastructure** (a magazine on infrastructure policy and finance) and **Power Line** (India’s premier power magazine). It also publishes a series of reports on the infrastructure sectors including **Airport Development in India**, **Freight Market in India** and **Storage Infrastructure in India**. It also publishes **Aviation News** (a weekly newsletter) and the **Airport Directory and Yearbook**.
